

Guidelines for Digital Signing

- 1) Use only Internet Explorer (IE 6.0 or above) Browser for Digital Signing.
- 2) Install **capicom.dll** according to instructions given on <http://164.100.181.16/ssdgsap/RegisterDLL.htm>
- 3) Open **Internet Explorer** Browser (Version 6.0 or above). Go to **Tools**→**InternetOptions**→**Security**→**Internet**. Drag down security level to **Medium** and **Remove Tick** on **Enable Protected Mode (Screenshots given below)**. Then click on OK. **Close and then re-open Internet Explorer**.
